

Plato Pathways

Beginning of Year Maintenance and Planning

Plato Pathways does not provide a step-by-step procedure for preparing your database for a new year.

However, they do provide several articles on their website that should be consulted, and the appropriate tasks detailed therein should be completed before allowing students to use the system for a new school year.

What Pathways User Information Do I need to back up?

http://support.plato.com/kb/tip_print.asp?psid=23180

Can I import student data from the new SSMS (Star Student Database) or do I have to manually enter every single student?

<http://support.plato.com/downloads/accountability/pathways/guides/SISImport.pdf>

What are the requirements for each of my Plato computer workstations?

<http://support.plato.com/downloads/accountability/pathways/reqs/PWNetworksConfigReqs.pdf>

What rights and permissions do my workstations/users have to have?
