Meigs County High School Dual Credit & Dual Enrollment

EXPANDING OPPORTUNITIES FOR STUDENTS

Statewide dual credit provides academically challenging, high school courses that are aligned to postsecondary standards.

Students can earn postsecondary credit if they meet or exceed the established cut score for the challenge exam.

- Tennessee high school and college faculty worked together to develop the learning objectives and challenge exam for each course.
- Students have the opportunity to earn credit that can be applied to any TN public postsecondary institution.
- Prior academic performance, ability, and interest should be used to inform student placement decisions.
- All students enrolled in a statewide dual credit course take the online challenge exam, which is used to assess mastery of the postsecondary-level learning objectives.
- Exam scores are reported on the high school transcript to ensure postsecondary credit is accurately awarded but are not used in any state accountability measures.
